Figure 1 shows a sequence of 9 hexagonal grids, each containing a cluster of black dots. The grids are labeled L, Z, E, E, K, K, K, K, L from left to right. The first and last grids (L) have a yellow background, while the others have a white background. The cluster of dots starts in the center-left of the first grid and moves towards the center-right of the eighth grid, ending in the center-left of the ninth grid.
