

The image displays a 12x12 grid of 144 hexagonal patterns. Each pattern is a hexagon filled with a white background and a grid of small white circles. Black dots are placed on these circles to form various geometric shapes and patterns. The patterns are organized into 12 rows and 12 columns, showing a variety of geometric shapes and symmetries. The patterns range from simple single dots to complex, multi-dot arrangements that form recognizable shapes like stars, crosses, and abstract designs. The overall layout is a square grid of these hexagonal units.
